HOW ARGUS WORKS

1 Our experienced team of stranding experts take the time to understand your operational goals.

2 We work with you to define your key performance indicators based on industry-proven benchmarks.

3 We deploy condition monitoring technology across your stranding operation to collect aggregate data.

4 ARGUS combines, processes, analyzes, and visualizes the aggregate data into operational intelligence.

5 ARGUS monitors your stranding operation, detects anomalies, and identifies action-driven solutions.
