

# Journeyman Millwright (Red Seal) - Production

Are you ready to dive into the exciting and innovative world of Engineered Wood? Kadant Carmanah Design has a great opportunity for a well-rounded individual within its Unionized Production team as a Millwright (Assembly).

Located in Surrey, B.C. Canada, Kadant designs and manufactures equipment for the panel and engineered wood products, pulp and paper, and sawmill industries. Providing leading edge technology and equipment to optimize fiber use for production of wood-based panels. Our products include SmartDISC stranders, SmartRING stranders, rotary debarkers, chippers, conveying/feeding equipment, and the repair and manufacture of equipment for the Pulp Mill industry.

Our company is growing and looking for talented, ambitious, and unique individuals to join our team. If you are looking to join a company that values its employees and what they bring to the table, we invite you to submit a resume.

## **POSITION OVERVIEW:**

As a Millwright, you will work closely with the Production Team to assemble heavy duty industrial parts (Bearings, Disc Brakes, Drive Assemblies) and build our machines (Ring/Disc Stranders, Chippers, Debarkers). Applicant will be required to:

- Follow all safety rules and regulations
- Able to work, day and afternoon shifts as required
- Read diagrams and schematic drawings, follow instructions to assemble parts to specifications and determine work procedures
- Assemble mechanical and heavy equipment according to drawings using hand and power tools
- Inspect and examine equipment and machinery to detect irregularities and defects
- Adhere to workplace safety policies and maintain a clean and safe work area
- Perform routine maintenance and repair minor issues on the equipment

## **EDUCATION & EXPERIENCE:**

- Minimum of 5 years experience as a Millwright, preferably in a heavy manufacturing environment (Heavy Duty mechanics, Derrickhands, Ship Building, Steel Production, etc.)
- High school degree or equivalent.
- Apprenticeship or vocational training a must
- Working knowledge of safety protocols
- Excellent manual dexterity, accuracy, and attention to detail
- Great verbal, written, mathematical skills and analytical abilities
- Ability to read hydraulic schematics and manuals
- Knowledge in the installation and assembly of large bearings and gears
- Ability to use precision tools to take accurate measurements
- Operate 20T & 10T overhead bridge cranes in a safe manner

**THE IDEAL CANDIDATE WILL POSSESS:**

- Ability to work in a fast-paced environment and deal with priority changes to meet customer demands.
- Be Efficient and accurate while demonstrating time managements skills in a fast-paced environment
- Understanding of manufactured parts and best practices for heavy manufactured goods an asset.
- Lead and participate in a continuous improvement ideology, including improving procedures, quality, process flow and efficiency
- Be an outstanding team player and communicator. Work well with the KCD team on achieving on time deliveries, taking direction from chargehands and productions teams on daily priorities, and being flexible to frequent customer requests.
- Maintain a very clean and organized work area
- Possess basic computer skills (MS Office), ERP experience is an asset.
- Ability to lift and carry up to 50 pounds.
- Be courteous and professional at all times

Note that this position is a unionized role and is bound by a collective agreement.
